

SPORTING SUCCESS

On Wednesday our Year 4 tennis team played exceptionally well, only dropping 2 games and achieving 1st place! Our netball players also did extremely well at the High 5 Netball competition at Kingston Grammar School at the end of half term, scoring 21 goals, winning their group stage, going on to the final cup stage and finishing 6th out of 32 schools.

INVESTIGATING LIGHT

STUDYING SOUND

In Science we are learning about how to make different sounds. We went around the school to discover what sounds we could hear in different areas.

Annabel & Riya (Tiger)

It was really fun because we got to investigate with torches and mirrors to prove that light travels in straight lines.

Ollie (Potter)

Y3 MUSIC & ART

Lion Class enjoyed listening to the Planets Suite this week. Afterwards, thinking about what they had heard, they had to paint a line, a colour and a shape and make it into a picture using pastels.

Messy Maps

I enjoyed making a big bridge and making the cut and the train coming past. I liked making a house. We built a huge tower using connecting blocks. Our map was showing how to get to the Malden Centre.

Jack & Olivia (Lion)

Exploring liquid Volume

We had to try to find different ways of making 1000ml. 1000ml is the same as 1 litre. I found that 500ml plus 500ml made a litre, it was really fun.

Ellie & Reggie (Hedgehog)

We did an interpretive dance during RE to represent that Buddha has now reached Nirvana. It was fun and we were the best.

Blake & Beau (Durrell)

INTERPRETIVE DANCE
