

# RAINBOW CAFE

YEAR 6 PRACTISE THEIR CUTTING

## MESSAGE FROM MISS WHITE

Every day this week, the children in Rainbow Nursery have opened up Rainbow Café and served drinks and biscuits to their parents. Red class have been giving out flowers they have grown and today Orange have picked radishes and spinach. The harvest at the juniors will begin soon, and they will be making food with what they have grown!

## GREEN FINGERS IN ORANGE

We sowed lots of seeds. The radishes and spinach are ready to eat. We gave them a lot of water and sun. The spinach is not bad. The radishes are a bit hot!

*Annabel, Yebin & Louis (Orange)*

Science was really fun because we were experimenting with chalk. We had to weigh it with the force meter then put it in cold water, before recording the weight again. Less bubbles came out of the chalk each time as it absorbed more water, and it became heavier, which showed it was porous.

Kate & Gemima L. (4M)

## RED CLASS - INSIDE AND OUT

In Red Class, we have been finding out about the human body. Yesterday, we drew round each other and then labelled it with different parts of our insides. We are excited because next week, we are going to learn about our skeletons!

Hanno, Alex W. & Ye Chan (Red)

## Flash & Bubble

Our fish are called Flash and Bubble - we chose the names ourselves. Everyday, children are chosen to feed them.

Alexandros & Tilly (Orange)

YELLOW CLASS CONCERT

Here are 3NB on their way to swimming. It looks like they are very prepared! Thank you to all the parents who walk with both Year 3 classes - the children would not be able to go without you.
