

UP (AND DOWN) WE GO!

This term, we are learning about forces. We went into the playground and showed how forces worked on us and the things around us. In the photo above, we were defying gravity (for a moment). In the photo below, they are showing a pull.

Jayden & Alfie (6S)

Y2 FIREWORKS

We made fireworks, I love the way my rocket can shoot out of the cone that I made! I made a cone and then made my rocket using art straws and card. I love it!

Ted & Archie (Yellow Class)

LEARNING IN RECEPTION

BAE CHALLENGE

Today, a team from BAE challenged us - we had to work in teams to make a marble run that goes the slowest speed. We used paper and masking tape to make prototypes of marble runs and then made our real marble runs out of card. We enjoyed having the opportunity to feel what it is like to be an engineer, working in different teams and the experience of building a structure.

OPEN THE BOOK

The Ungrateful Servant (Matthew 18:21-35)

ORANGE CLASS CLAY WORKSHOP

CROSS COUNTRY TRAINING

GIRLS' FOOTBALL TEAM

Today, we had a visit from a group Korean children who had come from Korea. We showed them around the school. They really liked the playground.
