

CRASH, BANG, WALLOP

We made rocket music, elephant music and firework music. Mrs Bond told us how to do it. They were South African drums and we played the drums with our hands. It was fun, it was beautiful, and it was very noisy!

Y4 MAGNETS

We have been learning about forces and magnets. We learn that the strength of a magnet does not depend on its size. When you put the north and north or south and south ends of a magnet together—they repel. *Bertie & Dana (4G)*

RECEPTION

Y5 TEST PARACHUTES

We made parachutes to see air resistance in action. We were testing which material was the slowest. There was tissue paper, plastic, silk, paper and newspaper. We found tissue was the best. We had so much fun!
