

YEAR 2 HABITATS

NURSERY

YEAR 5 & 6 HEARTRATE EXPERIMENT

We had to think of an experiment to see how different activities affect our heartrate. We first measured our resting pulse, then did the first activity (e.g. skipping or running) and measure our pulse again, then we did a second activity and measured our pulse a third time.

Ana & Chloe (Kipling)

FORGIVENESS

Owl Class forgiveness role plays.

MAKING NUMBERS IN YEAR 1

RECEPTION YOGA
