

IT'S ALL GREEK TO ME!

We pretended that we were Athens and fought the Persian Army. I learned lots about Greeks, how they got invaded and what they did to win the first battle. We had historically accurate meetings and rebuilt the city of Athens.
Ellie, Mei & Lucas (Macaw)

I really liked the Greek Workshop. It was a wonderful mixture of acting and learning. The most fun part was when we fought and built a wall.
Chloe, Gabriella & Jake (Macaw)

Science Solutions

In science we were mixing different liquids with different powder such as salt and flour to see if it is soluble or insoluble. It was extremely fun but quite hard to tell at some points. I observed that if you add sugar to oil, it makes clumps at the bottom. We learnt how to separate mixtures of different solids, like sand, rice and popcorn. *Phoebe & Tom (Durrell) & Millie & Kai (Herriot)*

REVERSIBLE & IRREVERSIBLE CHANGES

I loved watching the bread turn to toast. It smelled so yummy. *Joe (Fox)*

Hedgehog Class make oat & raisin cookies

Weather Forecasting

It was lots of fun and we learned how to work as a team. *Olive (Potter)*

SAVOURY CEREAL BAR CREATIONS

Making a scene!

It was so much fun making the Great Fire of London scenes. We had to think about what each of the characters were saying and the props we needed. *Yijing (Fox)*

YEAR 1 SKETCHING IN CHURCH
