

## WHO NOSE WHAT DAY IT IS!

I enjoyed the art activity because we used different materials and then made frames out of sticks. I enjoyed making a picture frame because I put my Red Nose in it! We got to take pictures on the iPads. It was really fun!  
*Libby, Leo, & Keira (Squirrel)*

## Making Mocktails

It was fun making mocktails. It was the best day ever. I learned that sometimes it can taste bad and sometimes it can taste good! We were learning about ml.

## SUBTRACTION USING NUMBER BONDS

Year 1 have been learning about fact families and how these help us when writing addition and subtraction sentences.

## OUTDOOR LEARNING DAY

This Friday the whole school took their learning outdoors! We had a fantastic range of curricular and team-based activities and it was wonderful to see children using our new Outdoor Learning resources to enhance the learning of new skills. Some of us even managed to wear Red Noses at the same time!

## Springtime painting

We have been learning about 'Springtime' in the Nursery this week. We looked closely at some daffodils and learnt about the different parts of the plant - the stem, petals, trumpet and the bulb! We did beautiful observational paintings of them too!

## POND LIFE

We are learning about Amphibian Life Cycles. Y5 went to the pond and got some frogspawn. Now they are growing into tadpoles. You can see some moving around; they are very cute. We need to get them some pondweed to eat now.
