

WELCOME TO NURSERY!

The nursery staff are so pleased how happily the children come into Nursery each day. They are enjoying all the different activities the nursery has to offer and are beginning to make new friends already!

PLANTING

We were planting some conkers, pine cones, helicopters and acorns with Mrs Honeybone. We are going to see how many trees we can grow.

Stefano, Chloe and Ollie (Squirrel)

Skipping Workshop

I loved it! It was my first time twisting the rope when skipping. I can skip on one leg and we can do it standing together back to back. We can also do backwards skipping!
Sofia and Grace M (Lion)

The children in Seahorse Class have settled in the routines of school really quickly and have enjoyed exploring all that the reception environment has to offer; both inside and out. This has included making Seahorse magnets within our creative area, exploring the World within our Reflection area and creating beautiful fairy gardens within our small word zone. Outside, the children have been using the large wooden blocks to supplement their imaginative play by creating boats, cars and trains. They have also used these blocks and the other resources available to create obstacle courses to balance across. They have also been exploring the marble run and, on a larger scale, creating their own runs for balls to roll down using guttering, pipes and ball pool balls.

Seasonal Changes

Squirrel Class have been looking for signs of autumn...we have been investigating changes in the weather (taking weekly readings of temperature and rainfall), we've been looking out for animals - and have seen real squirrels! Finally, we've been looking at changes to plants, both within the school grounds at home...we've found A LOT of evidence!

We drew round our hand and cut out our hands and we got some straws and cut them up into little pieces - two on each finger. We threaded some string with a bead on top through the straws and the hands moved. Our fingers moved when we pulled the string like tendons.
Keira, Libby and Eleanor (Lion)

TENDONS AND HANDS
